Fit for the future

HV training courses level 2S and 3S

In October, our popular high-voltage training courses will take place for the last time this year in Kirchentellinsfurt and Einbeck. Make yourself and your employees fit for the future so that you can work safely with the new technologies. The offer is only available in Germany and in german language.

New on the Autotestgeräte Leitenberger YouTube channel

The following videos are ready and new on our channel:

- Multi-Multi-brand Diagnosis of Agricultural Vehicles
- Multi-Multi-brand-Diagnosis MHE Material Handling Equipment
- Multi-Multi-brand-Diagnosis Marine
- Automatic transmission flushing

Coming Soon:

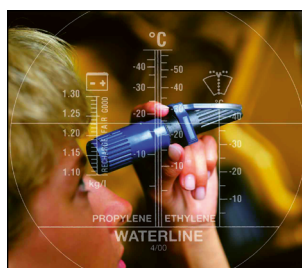

A video on the fast and bubble-free filling of thermal management systems in cooperation with the REPEXPERT specialists from SCHAEFFLER.

In addition, many more video projects are in the pipeline - so that you don't miss anything in the future, it's best to visit and subscribe to our channel right away.

Thinking about tomorrow today

refractometer for coolant assessment

Even if you can hardly believe it with the current temperatures, the next winter is just around the corner. Therefore, think about the procurement of refractometers for the assessment of the coolant in good time. Made in Germany and **customizable for orders from 100 pieces.**
